

TURKEY APOLOGIZES FOR FLEET'S ACTION

MUCH MORE DEMANDED TO BRING FRIENDLY RELATIONS

TURKEY IS SAID TO HAVE REFUSED DEMAND THAT GERMAN OFFICERS BE DISMISSED FROM SHIPS—POWERS MAY INSIST THAT ENTIRE FLEET BE PUT OUT OF COMMISSION.

London, Nov. 2.—The grand vizier of Turkey has apologized on behalf of his government for the warlike operations of the Turkish fleet under German commanders in the Black Sea but it was stated authoritatively this evening that the Porte will have to go very much farther than this before the powers of the triple entente will agree to resume friendly relations with the Ottoman government.

It was disclosed in a statement issued by the French government this evening that Turkey, in reply to a note presented by Russia, France and England on Friday last, agreed to recall her fleet from the Black Sea but refused to dismiss the German officers from her ships and, that as it was believed she could not maintain a passive attitude without doing this the ambassadors of the entente powers demanded their passports and left Turkey.

May Insist on Dismantling Fleet.

There is every reason to believe that, despite the apology of the grand vizier, which it is understood comes from the peace party in the Turkish cabinet and may not be adhered to by Enver Pasha, the minister of war and his Young Turk followers, France, Russia and Great Britain not only will demand reparation for the warlike operations of the Turkish fleet in the Black Sea but will insist that Turkey's entire fleet or at any rate the cruisers Breslau and Hamidies be put out of commission until after the war. Turkey's security being guaranteed in the meantime.

Must Withdraw Troops.

This would give Russia such superiority in the Black Sea that there would be no danger of Turkish raids. It is suggested also that demobilization of the Turkish army would be demanded which would mean that those troops which have crossed the Egyptian frontier must be withdrawn.

However, as the terms of Turkey's apology, which apparently was made in London, have not been published and must be considered by Entente powers before the apology is accepted or refused, there seems to be a long way to go before diplomatic relations between the Ottoman government and the allies can be resumed. An added difficulty to the situation is that the ambassadors of the powers have left Constantinople which will make it troublesome to ascertain whether the whole Turkish cabinet concurs in any agreement reached.

Another Steamer Seized.
Meanwhile a report comes from Constantinople of the seizure of another Russian steamer and also that Bulgaria, which had been asked to choose the side on which she would fight, had commenced to mobilize her second line troops.

The Germans continue to strike hard blows on the allies' lines in their endeavor to get through to the coast. So far they have found every road blocked but apparently disregarding losses, they continue to attack. The floods, the British army and the British fleet having barred their way southward along the coast and the Germans are now striking on a line stretching from Ypres, in Belgium to La Besee, farther south, in France but seemingly with no more success. The stubbornness of the fighting along this line may be gathered from the fact that the town of Messines, which the Germans now occupy, has been taken and retaken no less than four times since last Saturday, each time with enormous losses in killed or wounded.

Attacks also have been made along the entire battlefield as far east as Vosges region but, according to the French report, with the Germans having no more success than in the northwest.

Are Making a "Last" Effort.

The belief is growing here and it also has been expressed by those returning from Belgium that the Germans are making a last effort to get through to the coast and that if it fails they will fall back to positions which they have prepared in central Belgium.

Although the fighting is continuous on the east Prussian frontier in Poland and in Galicia, there is no important change in the situation and it is believed none is likely until the Russian armies come up with the Germans, who are retiring from the Vistula toward the Warthe river. On this river it is considered likely that another big battle will be fought.

Colonel Maritz Defeated.
The backbone of the rebellion in South Africa seems to be broken. Col. Maritz's command in the northern cape province, has been completely defeated. Several of the raiders and most of their men have been captured. General Beyers is in flight and General De Wet has opened negotiations for surrender, it is said.

The German cruiser Karlsruhe has added three more British steamers to her list of captures in the Atlantic, one of them the Vandyke, being a vessel of about 10,000 tons. There were reports today of navy.

COOK COUNTY MAY DECIDE RESULT OF ILLINOIS ELECTION

Political Experts Claim That the
Vote Cast in Big City Will Determine the Winners.

Chicago, Nov. 2.—Cook county tomorrow will decide the result of the biggest popular election Illinois has known. Political experts were agreed that the vote cast in this city will determine the winners.

As campaign managers closed their desks today they repeated the same conflicting claims which have marked the campaign. If Roger C. Sullivan, democratic candidate for United States senator, carries Cook county by 65,000 he will have an excellent chance to win, it is asserted. Senator Sherman's downstate plurality over Sullivan is figured from 50,000 upward. The questionable factor, it is admitted, is the size of the vote for Raymond Robins.

David F. Matchett, chairman of the Cook county republican committee, put his final figures at 35,000 plurality for the ticket. Directing the man A. J. Sabath, directing the democratic county fight, said the county would roll up the greatest majority ever given for the democratic ticket. Progressive headquarters looked for a sweeping victory.

The republican ticket today offers strong candidates for your favorable consideration. State treasurer, Andrew Russell; judge, John J. Reever; clerk, Thomas Hughes; sheriff, Grant Gaff; treasurer, George L. Stice; superintendent of schools, H. A. Withee; commissioner, Allison Thomson. Polls open at 7 and close at 5 o'clock.

GUTIERREZ NAMED HEAD OF MEXICO

CARRANZA DOES NOT RECOGNIZE CONVENTION'S CHOICE

REVOLUTION-TORN REPUBLIC HAS TWO CLAIMANTS OF SUPREME EXECUTIVE POWER—VILLA AND CARRANZA MAY RENEW CONFLICT.

El Paso, Tex., Nov. 2.—Mexico today is a republic with two claimants of supreme executive power. One of them Eulalio Gutierrez, named late yesterday at the Aguas Calientes conference was elected to serve only twenty days, said to be the shortest term of office in the history of any republic.

The other Venustiano Carranza, now in power at the national capital has not recognized Gutierrez as supplanting him as the choice of the convention of chiefs which previously had retired Carranza and Villa. Evidences tonight pointed to a renewal of actual conflict between the Carranza and Villa factions. Both sides were said to have begun the movement of troops.

The short term of office accorded to Gutierrez was out of consideration for the delegates of the Gen. Zapata, the southern chieftain who has no vote in the convention for lack of authorization from their lack. Within the twenty days allotted it was expected that Zapata would arrange to allow his agents to vote for him.

A message from the central bureau of information at Mexico City was given out by the consulate general office here today as follows:

"As soon as the first chief was informed of the action of the Aguas Calientes convention, he stated to the convention delegates that he was disposed to do as he had promised and give up his command and executive power as soon as the convention had fixed the form of provisional government and arranged for Zapata and Villa to give up command of their forces.

"Also he asks that an explanation be made to him of the motives which had impelled the convention to decide to accept his resignation and the motives for which it had considered expedient his resignation from power.

Carranza Delays Evacuation.

Washington, Nov. 2.—Governmental officers were keenly interested in the announcement that Eulalio Gutierrez had been chosen provisional president of Mexico by the convention at Aguas Calientes, but had no comment to make. Recognition so far as the United States is concerned depends on the agreement of all factions on the provisional president selected.

The evacuation of Vera Cruz it was reiterated in a note to the Carranza government from the state department will be carried out as soon as guarantees are given by the central government that Mexicans who served the United States during the American occupation are protected and that customs, duties and municipal taxes are not reimposed when the American forces withdraw.

The Aguas Calientes convention has approved the American demand, but General Carranza has hesitated to issue a proclamation carrying the required assurances. The American government also sent a copy of its note to the convention.

While the attitude of Carranza toward the convention's action was a matter of some doubt, his explanation to American Consul Silliman being that he would not withdraw unless Generals Villa and Zapata were retired, officials here were still confident that civil war would be averted and a compromise effected.

BRITISH GOVERNMENT CONCEDES RIGHT OF AMERICAN VESSELS

Steamers Laden with Illuminating
Oil Have Right to Deliver Cargoes
to Danish Ports.

Washington, Nov. 2.—By releasing the Standard Oil tank steamer Platania today, the British government conceded the right of American vessels laden with illuminating oil to deliver their cargoes to Danish ports. Great Britain has reached an understanding with Denmark that the oil will not be permitted to be exported to Germany. The United States government has consistently declined to recognize any authority on the part of the British government to detain such cargoes with or without an embargo but as long as there are no further seizures there will be no ground for pushing the protest.

By recognizing the right of American shippers to carry rosin and turpentine to Northern Europe without interference as authorized today the British government has relieved southern shippers of embarrassment and it is expected that much business will now flow onward.

A suggestion from British sources that American vessels seeking to enter the North Sea would save time and trouble by voluntarily stopping at a Scotch port to have their cargoes visited by the British authorities has not met with the approval of the state department, probably because of a desire to avoid recognizing any British authority over the movement of these ships.

War News Summarized

Although Turkey seems to desire to back down from her position as a belligerent against Russia, and her allies, the powers comprising the Triple Entente—Great Britain, France and Russia—have not yet accepted an apology offered by the grand vizier for the attacks made on Russian ships in the Black Sea by Turkish warships.

An official statement issued by the French government indicates that the allies are holding aloof from settling the controversy until Turkey agrees to their stipulations that the German officers in Turkey's employ be discharged. The Turks have agreed to withdraw their fleet from the Black Sea but as yet they have failed to acquiesce in the demand for the dismissal of the German officers. Thus Turkey's position in the European war still remains to be decided.

If reports be true the Sultan's forces are not remaining quiescent, while the negotiations between the grand vizier and the allied nations are in progress for an official commission from Vienna says the Turkish and the Russians are in battle near Trebizond, a Turkish port on the Black Sea, while another despatch declares that the Turks have seized a Russian steamer at Constantinople. The Serbian minister, following the example of the British, French and Russian representatives, is leaving Constantinople.

Meanwhile fierce fighting between the allies and the Germans along the battle lines in France and Belgium and between the Germans, Austrians and Russians in the east. No decisive engagements have occurred at any place but according to the reports of the various war correspondents, progress is being made for attacks repulsed by their respective armies.

One of the most important new features in the war situation is the announcement by the British admiralty that the entire North Sea has been declared a military area and that the vessels plying its waters will be in grave danger from mines, which it has planted, unless they obey rules laid down by the admiralty. These mines were laid, according to the admiralty, to offset similar action by the Germans to the north of Ireland. A news agency despatch says the Germans have placed big guns on Borkum Island, in the North Sea.

The German cruiser Karlsruhe has captured three additional British steamers in the South Atlantic.

Except that the general attack by the Japanese and British on the German fortress at Tsingtau continues, nothing is known of the situation there.

GERMANS ARE LEAVING LEFT BANK OF THE YSER

Belgian Report Asserts Enemies on
Yser Front Shows Little Activity.

Havre, via London, Nov. 2.—11:12 p. m.—The following Belgian report was issued at 10 p. m. this evening:

"On the Yser front the enemy has shown no activity. The bombardment has been feeble. Several shells apparently intended for the railroad station struck the town of Furnes.

"German troops appear largely to have evacuated the left bank of the Yser. Trenches situated 200 or 300 yards from our lines have been found empty. This morning a strong column marched from Manneken towards St. Pierre Capelle, where large forces already are assembled. The flooding of the country proceeds and the bridges and pontoons carried across the Yser by the enemy are still in position.

"Prisoners from the third German army corps report that mixed units of every description make up the forces fighting on the Yser. The men complain of the difficulty of fighting in the marshy land and of the losses inflicted on them by the artillery of the Allies, especially by the naval guns. Between Dixmude and Bixchoote the Allies' offensive is slowly progressing. Various German reserve forces are concentrated along a line through Encluvet, Hobeke and Pulemo. Their objective is Ypres.

"The arrival of the German emperor, which it is announced, expected shortly by the South Flanders, shows that the principal effort of the enemy is being directed between Ypres and the River Lys.

"The Allied troops yesterday and today broke the efforts of their assailants.

"The Russians have cut off the German line of retreat towards Posen, the enemy is falling back towards the southwest and the left wing of his rear guard is now at Lodz. Many prisoners, much material and an aviation park have been captured."

"JACK" SHERIDAN DIES.
San Jose, Cal., Nov. 2.—"Jack" Sheridan, dean of the umpiring staff of the American League of baseball clubs, died here today, from a sudden attack of heart failure, following a three weeks illness. He was 62 years old and had been an umpire for thirty years.

CANAL IS AGAIN CLOSED BY SLIDE

PANAMA IS CLOSED TO NAVIGATION BY LANDSLIDE

COL. GOETHALS CABLES NEWS OF SLIDE IN BREAK NORTH OF GOLD HILL—MAY HAVE CHANNEL OPEN TOMORROW.—IS AFTERMATH OF BIG SLIDE.

Washington, Nov. 2.—The Panama Canal has been closed to navigation by another landslide. Col. Goethals hopes to have the canal open again by Wednesday.

Col. Goethals cabled the canal commission late today.

"Rapid movement of slide material in the break north of Gold Hill locked the channel Saturday. Hope to open channel by Wednesday."

As understood at the canal offices this slide is only an aftermath of the big slide of October 14, when nearly three quarters of a million yards of earth and rock slowly slipped from the hillside down into the canal prism. A channel was promptly cut through this material and in five days a considerable fleet of vessels which had gathered at the end of the canal was passed through.

After the channel had been opened the work of excavation was continued in order to widen it to the full extent canal prism and it was recalled today that Col. Goethals indicated that the operation of the giant dredges might cause a further fall of material from the hillside to the base of which they were excavating.

Colonel Goethals has stated there is no known way of stopping these land slides in Culebra Cut; that the engineers must content themselves with removing the material as fast as it falls into the canal until the strata of earth and rocks above have permanently adjusted themselves to the channel in their base caused by the digging of the canal. This process may go on for many months, with decreasing volume, before the earth is finally and permanently quiescent. It is believed however that navigation of the canal will not be seriously interrupted for more than a few days at a time.

INDICTMENTS CHARGE CRIMINAL VIOLATION OF ANTI-TRUST LAW

Twenty Present or Former Directors
of New Haven Railroad Accused
in Federal Indictments.

New York, Nov. 2.—Within a few hours after the handing down to MacColloch Miller, who is 82 years old, twenty present or former directors and the former general counsel of the New York, New Haven and Hartford Railroad of criminal violation of the Sherman anti-trust law, four of the defendants entered pleas of not guilty before United States Judge Foster and were released under bond. It was reported tonight that several of those named in the indictment would claim immunity on the ground that they appeared as witnesses in the investigation of the New Haven's affairs by the Interstate Commerce commission.

The indictments today were the outcome of a grand jury inquiry which had been in progress here for several weeks. Charles S. Melton, former president of the New Haven and principal witness in this inquiry was not indicted. His name appears, however in a list of officers and former directors mentioned as "conspirators." The late J. P. Morgan is named in this bill as one of the "conspirators."

Bench warrants were issued for the arrest of those indicted at the request of the federal district attorneys. George F. Baker, rated in recent years next to the late Mr. Morgan as the leading financial power of Wall Street, Lewis Cass Leary, one of the country's best known attorneys, and Charles M. Pratt, a director in the Standard Oil Co., appeared personally in court to enter their pleas. George MacColloch Miller, who is 82 years old, was represented by his son. Their bail was fixed at \$5,000 each.

ALL SALOONS IN CHICAGO HAVE RENEWED THEIR LICENSES

Existing Licenses Have Come to
Have a High Premium since Adoption
of Ordinance Restricting
Number.

Chicago, Nov. 2.—Hopes of the anti-saloon element that some of the 7,152 saloon licenses in this city would be permitted to lapse owing to unprofitable business were shattered today, the last day for renewing licenses this year. Every license was renewed or exchanged to a new location.

A report had become current that the saloon business was so quiet in some sections of the city that at least 500 licenses would lapse. No license has been allowed to expire since the adoption of an ordinance, restricting the number of saloons to a basis of population and the existing licenses have come to have a high premium. Many of the licenses are owned by the breweries.

PROGRESS OF THE BATTLE REPORTED HIGHLY FAVORABLE

French Said to Have Thrown Invaders
Back Across the Aisne.

London, Nov. 2, 11:05 p. m.—A despatch from Berlin received tonight by the Marconi Wireless Telegraph Co., follows:

"The progress of the battle along the northern French frontier is regarded here as highly favorable. A report that the French have thrown back the enemy across the Aisne at a point near Soissons and that the operations have extended to the eastern front around Verdun is considered the best news received here from the front for some time past.

"Letters from the front describe the fighting between Neuport and Epres as probably the fiercest that has occurred since the commencement of the war. The Germans are said to have forced their way southward by repeated night attacks. The toll of death on both sides is great. "Fighting has not yet been resumed in Poland but according to information from Galicia events in that quarter are approaching a decisive point. A Crows despatch says the Russians have been driven across the San and also elected from Lezaysk. The Austrians are pursuing the Russians over a distance of fifteen miles."

WILL REDUCE SALARIES AND NUMBER OF PLAYERS CARRIED

Representatives of Organized and
Federal League Baseball Said to
Be of One Mind Regarding Fancy
Salaries.

Chicago, Nov. 2.—Representatives of organized baseball and the Federal League have reached one mind on the subject of players' salaries even though they are not yet ready for a general peace proclamation, according to a statement tonight by Charles Weeghman after a long session with August Herrmann, president of the national commission.

"Club owners have tired of putting out outlandish contracts in order to hold their stars. Take for instance Walter Johnson's latest demand that he be paid \$20,000 for a signature on a Federal contract. That means \$700 a game assuming that he would appear in thirty full games.

"The baseball men I have conferred with are unalterably opposed to these fancy salaries. Not only will the new contracts of the stars contain lower figures but the clubs will cease to number as many players as last year."

MAY SEND FEDERAL TROOPS TO ARKANSAS STRIKE ZONE

President and Secretary of War
Talk of Sending Troops to Enforce
Order at Hartford Valley.

Washington, Nov. 2.—President Wilson; Attorney General Gregory and Secretary Garrison of the war department discussed at a long conference at the White House tonight the advisability of sending federal troops to the strike zones of Hartford Valley, Ark., to assist Frank A. Youmans, United States District Judge, in enforcing the orders of his court.

No decision was reached, the announcement being made that no troops would be ordered out tonight at least. It was stated, however, that the request of the Federal judge was under consideration and the matter would be held in abeyance at least until tomorrow pending advice from him as to the ability of his marshals to cope with the situation.

Bloodshed and rioting and a most uncontrollable situation were pictured to officials here in despatches from the strike regions.

This is the first request of the kind that has come to the Federal government from a court in many years, but it is fully covered by federal statutes giving the department of justice power to call on the military branch of the government for assistance in enforcing the laws.

TWO DROWN IN OHIO.

Evansville, Ind., Nov. 2.—Ivan Heer and his sweetheart, Ross Ruth Reckman, both of Caseyville, Ill., were drowned in the Ohio River near here this afternoon. Up to a late hour tonight their bodies had not been recovered.

The couple were in a skiff enroute to Caseyville, Ky., where it is said they were to have been married. The skiff struck a snag and the pair sank in spite of the efforts of the occupants of a nearby launch to save them. Heer was 22 and his fiancée 20 years old.

STOCK QUARANTINE LINES EXTENDED

FIVE STATES ARE NOW UNDER FEDERAL ORDER

CATTLE FROM AREAS OTHER THAN THESE STATES UNDER QUARANTINE MAY BE SHIPPED TO THE CHICAGO YARD BUT THEY MAY LEAVE THERE ONLY AS DRESSED MEAT.

Washington, Nov. 2.—Federal quarantine to check a dangerous outbreak of foot and mouth disease among cattle in the middle west was extended by the department of agriculture today to include all Pennsylvania, Indiana, Michigan and Illinois and virtually placed Ohio under the same restrictions.

It affects the Union Stock Yards of Chicago, greatest cattle market of the world, to the extent that no live cattle may be shipped from there, during the duration of the quarantine, even to another infected area. Under the official interpretation of the order cattle from areas other than those under quarantine may be shipped to the Chicago yard, but they may leave there only as dressed meat.

After a day of conferences among officials here and exchanges with field agents throughout the affected area this explanation of the government's action was issued at the department of agriculture.

"The quarantine of livestock on account of outbreak of foot and mouth disease has been extended to cover the entire area of the state of Michigan, Indiana, Illinois and Pennsylvania. In addition, restrictions have been placed upon shipments of stock from Ohio. The order extending this quarantine was signed by the secretary of agriculture November 2 and goes into effect immediately.

"The provisions of this quarantine are practically the same as those previously announced for a few counties in Michigan and Indiana. No cattle, sheep or swine can be shipped from these states in interstate commerce and all fodder and animal products of every sort which might possibly convey the disease must be thoroughly disinfected.

"The quarantined states are not only prohibited from shipping cattle to uninfected areas but they cannot even send shipments of stock from one infected area to another.

"No cases of foot and mouth disease have as yet been discovered in Ohio, but on account of the fact that shipments from infected areas have been made to this state, it has been found necessary to place practically the same restrictions upon interstate shipments from Ohio as on those from the four other states.

"One instance of foot and mouth disease has been found among the stock exhibited at the National Dairy Show in Chicago. In order to prevent the spread of the infection, the other animals are now guarded by sheets saturated with disinfectant and inclosing the stalls in much the same way as human patients are isolated in hospitals.

Situation in Illinois.

Chicago, Nov. 2.—After excited conferences at the Union Stock Yards today in an effort to correctly interpret orders issued at Washington quarantining cattle, sheep and hogs in Illinois, Michigan, Indiana and Pennsylvania on account of hoof and mouth disease, the situation so far as Illinois is concerned was officially stated as follows:

"Cattle, sheep and hogs from any state not under quarantine may be shipped into Illinois for immediate slaughter at Chicago, Peoria or East St. Louis and the dressed meat therefrom subject to the usual food inspection, may be shipped anywhere.

"An order to this effect was issued at the stock yards after federal officials had announced the quarantine. The Illinois state live stock commission also issued an order that shipments may be made from any points within the state for immediate slaughter at Chicago, Peoria and East St. Louis. As understood at the stock yards the quarantine situation remains about the same as it was Saturday; that is, no live stock may be shipped into the quarantine districts and then shipped out again as live stock. It must be immediately slaughtered at the places designated heretofore. About fifty thousand cattle and two hundred thousand sheep have been shipped through the Union Stock Yards as stockers and feeders each month.

The Chicago Stock Yards immediately are to be disinfected and all the cattle there inspected for possible presence of hoof and mouth disease.

Dr. R. A. Ramsey, chief of the field inspection of the bureau of animal industry after conferring with Dr. O. E. Dyson, state veterinarian, and A. G. Leonard, president of the Union Stock Yards, recommended the modified form quarantine over Illinois because he said he found that affected cattle had passed through Chicago from an affected area in Michigan.

Mr. Leonard said the quarantine would not cause any serious handicap to the full operation of business at the stock yards. Nor would meat prices or employment be affected, he said.

A Serious Situation.

Questions of vast importance are
pending in the United States senate,
questions which affect the welfare
and prosperity of all. Senator
Sherman's record entitles him to
return and even if it were faulty
in some respects he should be again
elected as it is important to have a
senator from this great state who
believes in the principles upon
which the prosperity of this coun-
try have been built. In the primary
election Sherman received 137,000
votes while Raymond Robins re-
ceived less than 25,000. Roger Sul-
livan received 133,000. Republi-
cans should remember today that a
vote for Robins will be a vote to
aid Sullivan.

COMMUNICATED.

Editor Journal:

It seems to be a question with a
few of the Bull Moose who and
what I am and not a question as
to what is what.

If what I have said in regard to
the political situation is to be given
any consideration, then the first
thing in order I would think would
be to pass judgment upon the mat-
ter and say whether I have been
truthful in what I have written, or
whether I have misrepresented the
question that is before the voters of
this senatorial district or not. It
looks to me like there is an effort
being made to throw dust in the
eyes of the voters, by trying to make
it appear that I am sore because I
was defeated for the nomination at
the primaries. If I was, then the
most logical thing that I could have
done, would have been for me to
flap over and join the Bull Moose
crowd, instead of appealing to the
Republicans to stand loyal to the
old Republican party.

Now then, as to facts. Before I
became a candidate, I did telephone
and have the Progressive chairman
come to see me. What for? To
use every effort at my command to
get him and all the rest of those
that voted for Roosevelt to come
back and let us get together. I told
him if I should become a candidate,
and was successful, I would recog-
nize him and his friends just as
though there had never been any
split. My whole aim was for the
best interest of the Republican
party, but for him to say that I asked
him or any one else for the endorse-
ment of his party, is absolutely
false. I also met another Progress-
ive, now a candidate, and said to
him I may be a candidate for as-
sessor and treasurer, if you are
going to help out the Republicans this
fall I would appreciate your help.

Now a few words as to whether
the Republicans have any reason-
able grounds for trying to get even
with Sangamon county, by voting
against the Republican candidates
for the legislature. Consider the
vote at the primaries and see if you
can afford to do so. There were, if
I remember correctly, about 1,400
votes cast in Morgan county. Mr.
Green receiving about 1100, the rest
went to the candidates in Sangam-
on. Mr. Green receiving 1700
votes from Sangamon county, or

FOR SENATOR SHERMAN

Believes He Should Be Returned to
Senate at This Time When Clear
Thinking is Greatly Needed.

The following is a portion of an
editorial in the Chicago Tribune in
which the senatorial situation is
summarized and Tribune declares
strongly for Senator Sherman.

Lawrence Y. Sherman is the Re-
publican candidate. He was first
nominated by the direct primaries
over Senator Culom in 1912. He
was a delegate at large to the Re-
publican national convention, and
was one of the most influential of
the Roosevelt delegates. He was
who formulated the parliamentary
theory upon which Roosevelt fol-
lowers base their claim of a stolen
convention.

"After the convention and the
formation of the Progressive party
he elected to retain his Republican
direct primary nomination. He was
elected in the legislature by the
Republican members in combination
with the Democrats only after a
fusion between the Republicans and
Progressives had failed.

"Opposition to him makes much
of the undeniable fact that he once
voted for a very bad measure in the
legislature—the Allen bill. Opposi-
tion ignores the fact that he, more
than any one else, secured a repeal
of the Allen bill two years later.

"Since then he has been a leader
in the improvement of politics. His
conduct on the Illinois state board
of charities entitles him to a high
mark of public favor.

"His record in the United States
senate has been distinguished by
courage in resisting political pres-
sure from special interests and in
defying misrepresentation.

"In the senate Sherman has been
among the first to distinguish spe-
cial privilege concealed in general
legislation. His courage in denounc-
ing the bogus in these measures
has brought down upon him the fire
of their proponents, men not yet
shown up in their true character.
"With the same penetration that
overthrew the argument of the
Taft bosses in the Republican con-
vention, he has picked out the in-
justices in the tariff and banking
laws, and he has joined others in
pointing out he many faults in the
Crawell-Clayton bill.

"Between Robins and Sherman
the question to answer is—which
one is better fitted to serve in the
present state of public affairs?

"Without detracting from the
high qualities of mind and charac-
ter which Robins undoubtedly pos-
sesses—qualities which have ren-
dered him of value to the community
in which he lives and which will
prove of value in the future—it
must be said they are not the qual-
ities most needed in the upper
house of congress at the present
time.

"The deep power of analysis, the
habit of reasoning all the possible
effects of a proposed enactment, the
refusal to be driven by an active
minority in support of bad legisla-
tion, should recommend Senator
Sherman to the voters at a time
when the nation needs clear think-
ing rather than sentiment, however
exalted.

LOCAL TALENT GIVES BENEFIT CONCERT AND ENTERTAINMENT

Proceeds Go Toward Free Anti-Tu-
berculosis Clinic and Open Air
School.

A benefit concert and entertain-
ment for the free anti-Tuberculosis
clinic and Open Air school was
given last night by local talent at
the Grand Opera House, under the
auspices of the Jacksonville Cour-
ier. Every seat in the main audi-
torium was occupied and the bal-
cony was comfortably filled, so that
a large sum was realized for the
open air school. Horace H. Ban-
croft told of the purpose of the en-
tertainment and aside from the mu-
sical numbers U. G. Woodman de-
lightened the audience for nearly an
hour with his magic and McCarly's
Arabs of Hiderim Temple No. 62, D.
O. K. K. put on one of their excel-
lent drills.

The musical program included
well known local talent, excepting
Mrs. Uria Bruening of Havana,
whom Jacksonville still claims, this
being her home for a number of
years. She is always a favorite in
musical circles and her art ever
pleases. She gave as encores "Sun-
rise" by Wekerlin and "A Memory"
by Felix Borowski. The program
was one of unusual merit and fully
merited. Mrs. Rosalind M. Day
of the faculty of the Woman's col-
lege was not able to appear in a
violin solo because of her sister's
serious illness in St. Louis. Her
place was taken by Miss Alma For-
sythe.

Mrs. Helen Ayers Bullard, Mrs.
Elizabeth Doying Vickery and Miss
Rachel Jerauld filled the positions of
accompanists in a talented man-
ner.

The program follows:

Part I
Piano Solo—"En Automne" Mos-
zkowski; "Gavotte" in D minor, d'
Albert; Miss Jean Demuth, fac-
ulty of Illinois Woman's college.

Trio—"Episodes" (Edw. L. Schu-
ett—Illinois College Conservatory
Trio: William E. Kritch, violin;
Edmund Munger, piano; Virgo Jen-
sen, cello.

Vocal solo—"Aria from La Perle
du Bresil"—Uria Rottger Bruening.
Violin solo—"Serenade" d'Am-
brosia; "Scherzo" Van Goens—Al-
ma Forsythe.

Vocal solo—"Arm. Arm. Yo
Brave"—Aria from Judas Maccabeus
—Mr. Robert Hockenbuhl.

Reading One of Bob's Tramps,
F. Hopkinson Smith—Miss May E.
Wallace of the Routh College fac-
ulty.

Vocal solo—"Air and Variations"
Proch—Uria Rottger Bruening.

Part II
Magie and Legerdmain—Mr. U.
G. Woodman.

TIMELY QUOTATION.

Guy de Maupassant on War.—
"When I but consider the world
war I feel a shock, as if one spoke
to me of witchcraft, inquisition,
some dead and distant thing, abom-
inable, monstrous, unnatural. When
we hear of the carnal we smile
with pride and proclaim our super-
iority over those savages. What
are savages—real savages—those
who fight to eat the victims, or
those who fight to kill, merely to
kill. These youthful soldiers are
the line speeding along the roads
are destined to death, just as the flocks
of sheep driven along the roads by
the butcher. They are destined to
fall on a plain, their heads cleft by
a stroke from a sword or their
breasts pierced by a bullet. And
these are young men who could
work, produce, be useful. Their
fathers are old and poor; their
mothers, who during twenty years
have loved and worshipped them,
as mothers can worship, will learn
in six months or perhaps a year
that the son, the child, the big
child, brought up with so much
trouble, with so much money, with
so much love, was thrown into a
hole like a dead dog, after his body,
riddled by a bullet, had been
trampled and crushed into pulp by
the charge of cavalry. Why have
they killed her boy, her noble boy,
her only hope, her pride, her life?
She cannot tell. Yes, why? War
..... to fight!..... to slaughter,
to massacre men! And today, in
our times, with our civilization,
when we imagine that human gen-
ius has advanced so far in knowledge
and so high in philosophy, we have
schools where they learn to kill, to
kill at a distance, with the utmost
accuracy, many people at a time, to
kill poor, innocent wretches, bur-
dened with a family. And most
stupefying of all is the fact that
he people do not rise up against
the governments. What difference
is there, then, between monarchies
and republics? The most stupefy-
ing thing is that society does not
revolt in a body at the very word
war. Men of war are the scourges
of the earth. We fight against na-
ture, ignorance, obstacles of all
kinds, to make our miserable life
less hard. Men—benefactors, learn-
ed men— spend their lives in work-
ing and searching for what might
aid, succor, and relieve their breth-
ren. Passionately devoted to their
useful task, they accumulate dis-
covery upon discovery, elevate the
human spirit, furthering knowl-
edge, adding daily to the prosper-
ity, comfort and strength of their
country. War breaks out. In six
months generals have destroyed
the efforts, the patience and the
genius of twenty years. Well, since
governments have thus power of life
and death over the people, it is not
astonishing that the people some-
times assume the right of life and
death over the governments. They
defend themselves. They are right.
No one has absolute right to gov-
ern others. One can do it only for
the welfare of those one directs.
Whoever governs has just as much
power to avert war as the captain
of a ship has to save his vessel from
shipwreck. When a captain loses
his vessel he is condemned if he is
found to be guilty of negligence or
incompetence. Why should govern-
ments not be judged after each
declaration of war?"

"Democratic Economy."

Collier's magazine for October 24,
in a strong editorial on "Demo-
cratic Economy," attacks the failure
of President Wilson and the Demo-
cratic party to live up to its plat-
form guaranteeing economy in the
government. The editorial says:
"Pass now to the actual figures for
appropriations during the time the
Democrats have had control of con-
gress:

1911	978,521,987
1912	995,799,462
1913	988,353,340
1914	1,057,605,694
1915	1,089,408,777

"These facts ought to be driven
home everywhere. Some people
shout that the Democrats ought to
be re-elected as a 'vote of confidence'
for President Wilson." Our own
view is that some Democrats ought
to be re-elected and some ought to
be defeated."

The table published by Collier's
shows an increase of \$100,000,000
between 1913 and 1915. Since then
the income tax has been levied and
has gone into effect, from which
the Democrats expected a large
amount of revenue. The real deficit
was caused by the bungling reduc-
tion of the tariff, which did not pro-
vide for adequate revenue for the
extravagant appropriations. The
great reduction in the government
income was well defined by July 1,
the commencement of the fiscal year
a month before the war began. The
Democrats now are anxiously wait-
ing to see whether the war tax will pro-
duce enough revenue to cover the
deficit in the government's income
that they expect to continue to
grow while the war is in progress.

Couldn't Wear Them All.

A small boy was one day asked by a
clergyman if he knew what was meant
by energy and enterprise.

"No, sir, I don't think I do."
The clergyman said: "Well, I will
tell you, my boy. One of the richest
men in the world came here without a
shirt on his back, and now he has
millions."

"Millions!" replied the boy. "How
many does he put on at a time?"—Los
Angeles Examiner.

It does seem that women have

The remains of Mr. Craig were brought to Jacksonville Monday afternoon at 2:08 o'clock via the Burlington, and were accompanied by his widow and two daughters. The services were in charge of Rev. L. Mr. Craig was of a family of eleven children and was born in Ohio, July 17, 1836, a son of Mr. and Mrs. George Craig. When the deceased was but a small boy the family came to Illinois and for many years resided on a farm three miles east of Jacksonville. Mr. Craig was married September 7, 1870 to Abbie L. A VENERABLE LADY.

Miss M. C. Melindy, of North Prairie street, was 83 years of age Saturday.

Miss Melindy is one of our best and most respected citizens. Her parents were born in New Hampshire, and she in Cincinnati, Ohio. They came to Jacksonville in 1833. Thomas W. Melindy was the father, and he lived first in the house on the north side of West Court street, second door west of North West street. Afterward the family lived in a house which stood where the "Kreider" house now is, on the north side of West State street, just west of the Scott block. The last family home, where Miss Melindy resides, was on North Prairie street, southwest corner of Jordan. There used to be a little building in the southeast corner of the "Kreider" lot, where Miss Melindy and her sister had a school for years. Many of our well known people attended this.

Miss Melindy has been "shut in" for some years, but she is a lady of fine mind, and still interested in the events of the day.

She is notable as perhaps the last living resident who rode upon the excursion train in 1839, when the Northern Cross railroad, the first of all in the northwest, was opened from Meredosia to Jacksonville. Mrs. Robert T. Osborne, senior, was another, but she passed away recently. It will be remembered that the Northern Cross railroad became the Sangamon & Morgan, then the Great Western of Illinois, then the Toledo, Wabash & Western, then Toledo, Wabash & Pacific and is now the Wabash railway.

Miss Melindy's friends contrabuted her upon her long and honored life.

MR. AND MRS. BARNHART ENTERTAIN FOR FRIENDS

Mr. and Mrs. George Barnhart, south of the city, entertained a number of friends at their home Saturday evening in honor of John Stark, who has made his home with them, and who will return soon to his native city, Louisville, Ky. Oysters and other good things were served and a delightful Halloween event was enjoyed by everyone.

Among the guests were Mr. and Mrs. John S. Butler and daughter, Twila, Mr. and Mrs. John Casey, Mr. and Mrs. John Harding, Mr. and Mrs. John Lewis, Mr. and Mrs. Lewis Boughman, Mr. and Mrs. Claude Winter and daughter, Mr. and Mrs. Ernest Harding, Mr. and Mrs. Porter Bell, Mrs. Sarah Vorhees and son, Hugh, and John Leach.

PLAN POULTRY SHOW.

The annual show of the Morgan County Poultry association was the subject of a recent meeting when plans were discussed and a committee appointed consisting of D. T. Heimlich, Leonard Day and J. C. Weber. To render the association more independent this year, there will be charged a small admission fee. Such charges have never before been made but it is not the purpose of the poultry men to ask aid in any form from the merchants.

The committee on the benefit moving picture feature reported a net income of thirty dollars and plans were made for another such benefit in the near future. Three new members were received into the association: Mrs. E. L. Rexmont, Mrs. Rebecca Byrns and Miss Louise Meisenbach of White Hall.

HERE are some statistics gathered from the records of the Cigar Makers International Union. They are interesting at this time. They show the effects of the economic organization, which uses this label.

In 1890, 49 per cent of the amount expended for sick benefit went to those suffering from tuberculosis.

In 1910 the total amount expended for sick benefits was \$189,438.59, of which amount about 21 5-10 per cent, or \$40,729.30, was paid to members suffering from tuberculosis.

In 1911 the total expended for sick benefit amounted to \$201,296.03, of which amount 20 1-10 per cent, or \$40,460.50, was paid to members suffering from tuberculosis. This shows a reduction of 28 9-10 per cent in 21 years.

These figures are based on a general average, while as a matter of fact, those suffering from tuberculosis are more generally sick, and hence more liable to draw sick benefit, so that the average amount is necessarily and reasonably not fully covered in the figures given.

HOG FEEDERS

Pat. Applied for 100 bu. size.

We have at last discovered the best and healthiest hog feed, it is 1-2 corn and cob meal, 1-3 wheat and 1-6 oats cooked until 10 bushels will make 25 bushels in bulk, then draw off 25 gallons of syrup, and add 50 gallons of water and then add 25 gallons of ground wheat and oats to thicken the slop, feed it warm if possible. This will make 100 gallons of the best slop ever fed a hog.

Come and see 160 head I am feeding on 10 bushels of this mixture of dry grain per day and you can see the results. They are running on my wheat stubble sown in cover, all eat regular and perfectly healthy. If I tell you what they are gaining you could not believe it, so come and see them, and you will say they are doing better than hogs fed twice the amount of dry grain.

Yours for producing more beef and pork.

BOARD OF EDUCATION HOLDS REGULAR MEETING MONDAY

Fixes Thanksgiving and Christmas Vacations for Schools—Financial Situation is Discussed.

At the regular meeting of the board of education, held Monday night, the time for the Thanksgiving and Christmas vacations for the schools were fixed and considerable discussion was had relative to the present financial conditions of the board.

The roll call showed all members present, with President Davis in the chair, but before the meeting closed the chairman withdrew and Member Hall took charge for the remainder of the meeting. All properly approved claims were ordered paid when funds are available and the reports of officers were received and placed on file. Treasurer Farrell's report showed a balance of \$3,986.98 in the general fund and \$559.13 in the building and repair fund. Clerk Pyatt explained that the general fund balance in reality was only \$2,000, and explained the difference in his figures and those of Mr. Farrell was because of a number of outstanding warrants of which the treasurer had no record. Member Rogers, chairman of the finance committee, stated that he had been unable to make any arrangements at the banks for money and reported that the treasurer of the board said that he couldn't pay more vouchers.

Member Wells reported that good progress was being made on the boilers in the new building and that the brick work would be completed about the middle of the week. Under the head of new business the guarantees of the contractor and architect for the new building were accepted and made a part of the records.

Dr. Clappitt stated that financially the board was in a sad predicament and that he attributed a good deal of it to the refusal of the city commission to allow the tax levy asked for by the board to finish the new building. He stated that he could not see any good reason why the treasurer, who had had the use of from twenty to sixty thousand dollars of the board's money for a considerable period without paying any interest whatever, should now refuse to cash warrants for the salaries now that the board was in need of money. Dr. Clappitt moved that the clerk be instructed to notify the treasurer of the board that all warrants issued and presented to him for payment, to stamp on the back of warrants refused payment on account of no funds, and return said warrants to the holders. That the clerk be instructed to notify the banks and other holders of such warrants properly stamped by the treasurer, to file a bill for interest on all warrants properly stamped and cashed by them and the clerk will then issue a warrant each month for such interest and avoid any discount on salary warrants, interest to be figured from date of warrants to May 10, 1915. The vote to adopt the motion was unanimous. There was some discussion too as to the money due contractors. The building fund cannot be anticipated but an effort will be made to secure funds in some other way.

Superintendent Collins presented a communication from Miss White, asking that some name be selected for the new building. Member Wells suggested that it be called the "Junior High School" and after some discussion action on the matter was deferred. Mr. Collins reported two changes which were made in teachers' regulations, which were adopted and a motion was passed that teachers desiring to attend the sessions of the State University High School Conference in Champaign November 19 and 20 be permitted to go, but that school should not be dismissed on those days.

Superintendent Collins brought on the matter of the Christmas vacation and suggested that as a good deal of time has been lost already this year the vacation time be decreased one week. A motion was passed that the Thanksgiving vacation commence Wednesday evening, November 25 and continue until Monday morning, Nov. 30 and that the Christmas vacation begin Thursday evening, Dec. 24 and continue to the morning of the first Monday in January. Some discussion was had regarding the payment of tuition of non-resident pupils and the clerk was instructed to call up insurance agents and call for the rebate on the policies on the new building, after which the board adjourned.

The Republican ticket today offers strong candidates for your favorable consideration. State treasurer, Andrew Russell; judge, John J. Reeve; clerk, Thomas Hughes; sheriff, Grant Graft; treasurer, George L. Seice; superintendent of schools, H. A. Withee; commissioner, Allison Thomason. 5 o'clock.

TURKEY APOLOGIZES FOR FLEETS ACTIONS

(Continued from Page One.)

al activity in the Straits of Dover. A despatch from Dover said a British torpedo boat destroyer was observed to be in action, apparently against a German submarine.

Efforts to Avert War. Washington, Nov. 2.—Turkey's apology, "for recent events in the Black Sea" through the Grand Vizier, announced at London, was a sequel to events which Ambassador Morgenthau reported today in confidential cipher messages to the state department. It was accepted here as indicating clearly a purpose on the part of the conservative members of the Ottoman cabinet to avert war with the triple entente.

Mr. Morgenthau cabled under date of 5 p. m. Saturday that shortly after the Russian ambassador demanded his passports, the Turkish ambassador of agriculture called a neutral diplomat and asked him to go to the Russian envoy to ascertain if an apology by Turkey for the bombardment of Russian ports in the Black Sea would be accepted and would pacify Russia. The neutral diplomat saw the Russian ambassador who said that his instructions to leave Constantinople were absolute but that when all German sailors, soldiers and officers were dismissed summarily from the Turkish army and navy and when he had been advised of their departure from Turkey he would return and resume diplomatic relations with the Ottoman empire.

Ambassadors Leave on Special. Later in the day the Turkish minister of Agriculture called on the same neutral diplomat to learn if an apology would be accepted by the Russian government. The same reply was made to him and the Russian, French and British ambassadors left on a special train Saturday evening.

Although details of the Turkish apology reported from London had not reached here, officials and diplomats conversant with the situation did not believe the triple entente would be satisfied with the written apology unless it was accompanied by the dismissal of the German officers and sailors and soldiers and perhaps by the dismantling of the Goeben and Breslau, former German cruisers now menacing commerce of the Allies in the Black Sea. The transfer of these vessels to Turkey has never been explained to the satisfaction of the Entente.

Government Seriously Split. The efforts of the ministers in the Turkish cabinet to avert a war are in line, with previous indications that the Ottoman government was seriously split on the issue of war or neutrality. The ministers of finance, interior, and agriculture are endeavoring to keep Turkey at peace with the Entente but the ministers of war and navy are said to have been strongly in favor of striking for Germany.

The American ambassador is making arrangements for panic stricken Americans to leave Turkey by special train to Greece. The Italian ambassador is active in trying to secure safe conduct for Russian subjects who also are anxious to leave the Ottoman empire.

Might Endanger Missionaries. From the reports dispatched by Mr. Morgenthau before cable communication with Constantinople was severed late Saturday night and from the Turkish apology forwarded to London, a ray of hope that Turkey would take into account her already demoralized economic condition and maintain her neutrality was apparent in official circles. The view of Turkey into war was viewed here with some concern on account of the possibilities of anti-Christian uprisings and danger to American missionaries.

That Great Britain was prepared for an attack in Egypt was indicated in a message from American diplomatic agents at Cairo today. The British charge d'affaires there informed the American consul martial law had been declared throughout Egypt and that the British commander had orders to take vigorous measure to repress any outbreaks in Egypt as well as to defend British refugees.

Masques were at last laid aside with fruits and nuts were discovered. In the games and contests Miss Hallie Gordon won the first prize and Miss Hazel Massey the booby prize. Ample refreshments were served.

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. GERMANS PLACE HEAVY GUNS ON BORKUM ISLAND

Southern Island of Frisian Group May Be Used as Submarine Base.

London, Nov. 2.—A Central News despatch from Amsterdam says that German 42 centimetre guns have been placed on Borkum Island in the North Sea.

Borkum is a small island belonging to Prussia at the mouth of the Ems. It is sixty miles southwest of Heligoland.

Borkum Island is the most southerly of a string of islands that skirt the German coast from Cuxhaven to the mouth of the Ems, these, with several islands owned by The Netherlands, constitute the Frisian group.

The strategic value of Borkum Island, which is six miles in length and two miles wide lies in the fact that it commands the Estuary of the Ems and might perhaps be used as a submarine base and also in the defense of East Frisia, the district of Prussia, which forms the northwesternmost corner of Hanover and of the German empire.

German submarines are known to be operating along the southern shores of the North Sea, and heavy guns placed on the German island might be valuable in the defense of their base.

DRIVING CLUB ISSUES A STATEMENT

A result of the fight between Ed Jericho and N. Pervins at the racing meet of the Auburn Driving club several weeks ago, both of the horsemen have been barred from participating in any future meets at Auburn.

In a statement issued recently, the Auburn Driving club has the following to say:

"Knowing the class of people that are interested in our association and who patronize our matinees we are sorry of the things that happened at our matinee on October 24 and in the future we expect to be more careful in making arrangements for keeping order and we hope the public will overlook what happened and we further announce that any person or persons coming to our races to make trouble or for any other purpose than observing order has no invitation whatsoever.

"We also state that Ed Jericho has been barred from either training or starting a horse on our track on account of the part he took in the trouble that happened on the track on Oct. 24, and for the interest of the association Nate Purvine has been asked not to drive at any of our matinees."

"TWILIGHT SLEEP."

The first case of "twilight sleep" recorded in Jacksonville and possibly in this section of the state has just come to notice. "Twilight sleep" as most women readers can tell you is the term applied to painless child birth which has been the theme of a series of articles in McClure's magazine which has attracted wide attention.

The condition of twilight sleep results when the patient is given a hypodermic injection of scopolamine, a drug which through the physical centers effects the realization of pain. The method in Europe is known as Freiburgh's and has been developed at the Freiburg clinic at the University of Bonn in Germany. The Morgan county woman for whom the method was used is a patient at Our Savior's hospital. Labor pains were of about 16 hours duration but she has no recollection of them whatever.

Orville Eugene Patton of Webster avenue entertained for a number of his little friends Saturday evening at a Halloween event of especial enjoyment. The games were cleverly planned and as enthusiastically received and there was throughout the evening abounding fun and unabating pleasure. Refreshments in keeping with All Saint's festival were served. Those present were Vineta and Isola Green, Bessie and Josie Smith, Daisy and Annette McLean, Helen Marie Denney, Wilbur Woodrow, and Vernon Smith, Emerson and Joyce Delbert Hackel.

WILL JUDGE SHOW.

D. T. Heimlich will be one of the judges at the Missouri state poultry show which will be held in St. Louis the week of Thanksgiving, according to premium lists just received by poultry men in the city. The Morgan county association expect to issue their premium lists the first week in December.

CASES ADDED TO DOCKET.

The following cases were added to the docket of the circuit court yesterday and all of them will come before the grand jury at its session next week.

George Murphy and Edward McKavitt, horse stealing; Fred Ausmus, assault with attempt to kill; Glen Whitlock, Merl Abernathy and Randolph Ball, burglary and larceny.

The revival meetings at the Christian church of Literberry in charge of the Rev. Roger H. Fife of Kansas City were closed with a baptismal service at 9 o'clock Monday morning. There were six additions at the last preaching service Sunday night. The meetings have been very successful with forty-six additions in all, two-thirds of the number men and boys.

SEE IF THE CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated. Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

(When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.)

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

GIVEN HEAVY FINE FOR CARRYING CONCEALED WEAPONS

Squire Dyer Assesses \$100 and Costs Against Fred Shannon—Offense Committed Several Weeks Since.

Fred Shannon was arrested by Patrolmen Deatherage and Moore Sunday and on Monday was given a hearing in Squire Dyer's court where he was fined \$100 and costs on a charge of carrying concealed weapons. As he was unable to pay this fine he is now a prisoner in the county jail. Shannon it seems fired a shot or two at Herbert Lynch when they were both near the corner of Anna and West streets one night several weeks ago. Subsequent to the shooting Shannon disappeared and the police have been on the watch for him since that time. The heavy fine assessed against him should offer a good lesson to others who are in the habit of carrying concealed weapons and who may be dealt with likewise should occasion arise.

SIGNS OF SPRING.

It would seem as if spring had been annexed to fall judging from some of the signs observed in the spring of the year. Mrs. F. C. Taylor last week picked snowballs, and from a magnolia tree in the yard she picked a scarlet bloom, in the garden strawberries were in bloom and the freeze on Tuesday, Oct. 27th, did not appear to injure the latter as blooms are still in fine condition though the plants were not covered.

BAD BLOOD.

Hatred of the Nations for One Another.

This European war was born of the hatred caused by earlier warfare—it will engender other wars between the same nations in the future. The sons yet unborn will carry this hatred in their blood to blaze into warfare when the spark is touched by kings or statesmen who are yet in infancy.

It's bad blood that makes your liver sluggish and the same bad blood causes your stomach muscles to lose their elasticity and become flabby and weak and that means indigestion.

Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics, is not a secret remedy for all its ingredients are printed on wrapper.

Take it as directed and it will search out impure and poisonous matter in the stomach, liver and bowels and kidneys and drive it from the system through the natural channels.

It will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will replace all the bad blood it drives out, with rich, pure blood full of vital force. It will furnish you with the kind of blood that increases energy and ambition, that puts the entire body in such perfect physical condition that brain or muscles know no fatigue.

It will cure the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away never to appear again.

Get Dr. Pierce's Golden Medical Discovery at any medicine dealer today, in either liquid or tablet form as you prefer. It's the one great blood maker and purifier that all weak or run down people ought to start to use at once. If you want good blood, good health and clear skin, get a supply today.

The Unhappy Home

Tired father to his home returns, all jaded by the stress and fray, to have the rest for which he yearns throughout the long and toilsome day. His supper's ready on the board, as good a meal as e'er was sprung, a meal no worker could afford in older times, when we were young. He looks around with frowning brow, and sighs, "Ah! what a lot of junk! This butter never knew a cow, the coffee is extremely punk. You know I like potatoes boiled, of course you dish them fried; this beef-steak has been broiled until it's tough as walrus hide. It beats me, Susan, where you find such doughnuts, which resemble rock, these biscuits you no doubt designed to act as weights for yonder clock. You couldn't fracture with a club the kind of sponge cake that you dish; alas, for dear old mother's grub throughout my days I vainly wish." Then Susan, burdened with her cares, worn out, discouraged, sad and weak, sits down beneath the ceiling stairs, and weeps in German, French and Greek. Alas, the poor, unhappy soul, whose maiden dreams are all a wreck! She ought to take a ten-foot pole and prod her husband in the neck.

A SPINDLE BROKE.

Mr. and Mrs. W. H. Ledford in their Oakland car had been spending the day at the home of some friends in the vicinity of Woodson Sunday and on returning in the evening had as a passenger A. W. Becker who was returning home, also from Woodson.

When a few miles on their journey, and coming at a 12 mile gait, a spindle which connects a front wheel to the axle broke and the wheel being released ran ahead for several yards, and the axle plowed up the ground until the auto was stopped. Mrs. Ledford was thrown out upon the roadside, but very fortunately she sustained no injury. Neither of the gentlemen were thrown out. The party came home in a vehicle secured in the vicinity of the accident, and the disabled auto was brought to town by a messenger and car from the Estaque garage.

"DE LUXE" BOOK SWINDLERS ARE FOUND GUILTY BY JURY

James Farmer and William J. Hartley Said to Have Defrauded Book Lovers of More Than Ten Million Dollars.

New York, Nov. 2.—A verdict of guilty was returned by the jury in the federal district court tonight against James J. Farmer and Col. Wm. J. Hartley, indicted on a charge of fraudulent use of the mails in "De Luxe" book frauds.

Thomas P. Dunn, also tried upon the same indictment, was acquitted. Upon motion of counsel for the defendants, Judge Foster released Farmer and Hartley in bonds of \$10,000 each until Friday morning, when argument regarding a new trial will be heard.

By their use of the mails, it was charged at the trial the defendants and others had defrauded book lovers out of more than \$10,000,000 through sales of so-called rare books, which they promised to resell for the purchaser to persons in Europe who would pay enough to yield the original purchasers a handsome profit.

Pleads Guilty to Charge.
Baltimore, Nov. 2.—George Elmer Long pleaded guilty here today of using the mails to defraud the Baltimore & Ohio railroad by false claims for losses on goods transported by the railroad. He was sentenced to three years in the federal prison at Atlanta.

It was stated in court that in the transactions set out in the indictment Long got about \$16,000. Altogether it is said, he mislaid the railroad of about \$50,000. He entered the employ of the railroad about three years ago as claim adjuster in the freight department.

SOME FEELING AGAINST WAR.
New York, Nov. 2.—James Larkin, Irish labor leader, head of the United Workers of Ireland, arrived here tonight on the American line steamer St. Louis from Liverpool. Mr. Larkin, who will make speeches while in this country, said there was considerable feeling in England, Ireland, Wales and Scotland against the conflict. Most of the Irishmen who have gone to the war, he said, are territorial.

DEMURRER SUSTAINED.
Marshall, Mo., Nov. 2.—Demurrer of the Chicago & Alton railroad in the suit of Attorney General Barker filed against the road in the circuit court of Saline county to recover \$2,000,000 alleged overcharges made by the railroad while the Missouri rate case was pending in the supreme court, was sustained in the court here today.

The court held the attorney could not maintain the suit under the law and that any action for damages was limited to the injunction bond of \$10,000 given at the time the injunction was granted.

POLITICAL NOTES.
Thirty nine states will hold elections on November 3.

Democrats in Congress claim they will retain their membership of 288. Republican Congressional leaders predict a gain of 100 seats and control of the House.

The election of Martin G. Brumbaugh, the famous educator, as governor of Pennsylvania is generally accepted throughout the state.

West Virginia is finishing a quiet campaign. While the Democrats show some dissension, the Republican chances appear thwarted by the Progressives.

Out in Indiana the election thrill is Tom Taggart, who, for the first time in his long career, has mounted the platform in the roll of spell-binder.

Ohio has a mixed-up situation, through the injection of the liquor question into the campaign. Congressmen Willis, Republican, and James R. Garfield, Progressive, are vying with each other for the dry votes.

The Ohio "wet" votes, called "liberal" by their own leaders, are conceded to Cox and this brings the labor votes to the Governor. For the leaders have decided to oppose state wide prohibition.

Perhaps the hottest fight of the year is in Pennsylvania, where Congressman Palmer is trying to oust Penrose from his Senate seat, with Pinchot as a third contestant.

New England issues are meagre, the only interesting fight being that of former Congressman Sam McCall for the governorship of Massachusetts against Walsh, the present Democratic governor.

New York politics is well up to the usual intrigues this year, and "bossism" is still a good argument in the Empire state. Glynn has the backing of the administration for the governorship, while District Attorney Whitman is making a good fight.

The interest which President Wilson is taking in the various campaigns presages his second running. Among those closest to him, it is believed that his decision will depend on his health, which has undergone a severe tax during his strenuous term.

When Webster Died.

Eloquent in life, Webster was sublime in death. He took leave of his household one by one, addressing to each fitting words of consolation. He wanted to know the gradual steps toward dissolution and calmly discussed them with his physician. At one time, awakened from a partial stupor which preceded death, he heard repeated the words of the psalm which has smoothed the death pillow of many a Christian: "Yes, though I walk through the valley of the shadow of death, I will fear no evil, for thou art with me; thy rod and thy staff, they comfort me." The dying statesman exclaimed, "Yes, thy rod—thy staff—but the fact, the fact I want"—for he was not certain whether the words that had been repeated to him were intended as an intimation that he was already in the dark valley. Waking up again past midnight and conscious that he was dying, he uttered the well known words, "I still live." Later he said something about poetry, and his son repeated one of the verses of Gray's "Elegy." He heard it and smiled. In the early morning Webster's soul went out with the tide—Rhodes' "History of the United States."

The Nurse's Dilemma.

"Habit is a cable," somebody has written, with other and sundry remarks as to this selfsame cable becoming stronger until at last you cannot break it. Be the last so or not, the first portion was never more aptly illustrated than one day recently in one of the board of health children's clinics.

The nurse in charge had fallen into the habit of calling her little patients "dear" and "dearie." Imagine her consternation when, turning to address the physician who was that day in charge, she started off with something like this:

"Dearie, don't you think"—
At this point half suppressed giggles from the other nurses and loud guffaws of laughter from the doctor himself brought the conversation to a sudden pause, while waves of crimson covered her face.—Detroit News.

Not Mumps.

A small boy of Nashville has been afflicted with mumps. The siege was unusually long and disagreeable. One evening recently an aunt who is a newspaper woman called up the boy's mother on the telephone to cancel an engagement. She was absent, and the boy himself answered the call.

"Tell your mother," said the aunt, "that I can't come out this evening because I have taken an assignment. Can you remember that?"

"Yes, ma'am," said the boy. "I'll tell her." When the mother returned he said to her:

"Mother, auntie telephoned that she couldn't come, because she is sick."

"Sick? Why, what's the matter?" she wanted to know.

"I forgot what it is she's got," said the boy. "It's something she has taken, but it isn't mumps." — Nashville Banner.

Why One Treaty Was Torn Up.

Many wars have flamed up from slight causes. One recalls the quarrel 'twixt that Venetian ambassador and that Turkish grand vizier of the past. The ratification of a treaty was in question, and the Turk asked the Venetian to swear in Moslem fashion—upon his beard and the beard of the prophet. The ambassador would not. "Venetians wear no beards," he remarked. "Neither do monkeys," replied the Turk, and straightway the treaty was torn up and war declared. And that interchange of compliments circling round the bear cost 150,000 lives.

Supreme Test of Friendship.

An invitation to breakfast was, in Macaulay's opinion, one of the supreme tests of friendship. "You invite a man to dinner," he wrote to Mrs. Harriet Beecher Stowe, "because you must invite him, because you are acquainted with his grandfather, or because it is proper that you should; but you invite a man to breakfast because you wish to see him. You may be sure if you are invited to breakfast that there is something agreeable about you."

Moral Twisted.

The telephone in a physician's office rang madly the other day, relates Current Opinion, and the following conversation took place:
"We want the doctor, quick!"
"Who's sick at your house?"
"Everybody except me. I'd been naughty, so they wouldn't give me any of the nice mushrooms papa picked in the woods."

DUNKIRK PREPARING

FOR STATE OF SIEGE

In Event of German Advance the Whole Neighborhood Will Be Flooded.

London, Nov. 2.—The following despatch from Berlin was received here tonight by the Marconi Wireless Telegraph Co.:

"Dunkirk is preparing for a state of siege. In the event of a German advance the whole neighborhood will be flooded. Panic exists in the town of Dunkirk, upon which several German aviators have dropped bombs."

"The rebellion in South Africa has increased. Gen. De Wet is at the head of the insurrection in the Orange Free State and Gen. Beyers in the Western Transvaal. The Boers have imprisoned many Englishmen."

"The inhabitants of London are leaving the capital for Scotland through fear of German airships."

"The banks in Cairo, Egypt, have suspended business. The Anglo-French fleet has been recalled from the Dardanelles."

"Vienna official advices say there have been no new developments in Galicia where both armies are well entrenched. Several Russian batteries have been destroyed by the heavy Austrian guns. In Serbia several successes have been obtained. A strongly fortified position has been captured after gallant resistance. The enemy lost four guns, eight machine guns and five officers and 500 men, in addition to a great deal of war material."

"The stock of copper in Germany is ample to provide war material, even if the war should be of long duration. The stocks are large enough to satisfy the requirements of private industries."

"Herr Schomberg, former counsellor of the German embassy in Tokio has informed interviewers that Japan's aim is to free Asia of European and American influence and subjugate China."

Among the Lions in the Dark.

Lecturing at the Royal Photographic society, reports the Dundee Advertiser, A. Radcliffe Dugmore said that on one night in British East Africa he saw twelve lions and succeeded in photographing ten of them. He set up three cameras near a carcass, connecting them with a flashlight apparatus. He watched through the night in a hiding place, and when a lion appeared he pressed a button, which opened the shutters of all three cameras and ignited the flash powder. Immediately after the flash the lions ran off, growling, and it was then necessary for the photographer to go out with a hand lamp and then reset the instruments. Until a man had done that he never knew what darkness was. Lions at night, said Mr. Dugmore, went by in troops of any number from three or four up to thirty or forty.

His Stock In Trade.

The nervous little man next to the car window sized up the fat man who shared the seat with him and ventured the inquiry:
"How's business?"
"Can't complain," said the other laconically.
"What do you deal in?"
"Mothers-in-law, billygoats, tramps, the weather, stranded actors, candidates, politics and the like."
"Whatt'ye tryin' to do?" snarled the nervous little man. "Tryin' to kid me?"
"Nope," the fat man grinned. "The things I have named in a large measure comprise my stock in trade. You see, my dear sir, I am a professional writer of jokes and anecdotes."—Youngstown Telegram.

Use "Gets-It," Corns Shriveled, Vanish!

It's the New Way, and You'll Forget You Ever Had Corns.

"2 drops put on in 2 seconds, corn shriveled, comes clean off!" That's the marvelous story of "GETS-IT," the new-plan corn cure. Nothing can be simpler for the cure of corns—and it

never fails. That's why millions of people are using "GETS-IT" today and throwing away their fussy plaster, sticky tape, irritating salve, and "wrapping outfits" that make a bundle around the toe and choke it into pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, sandpapers or files, with their blood-poison dangers. Try "GETS-IT" for that corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Jacksonville by Armstrong's Drug Co.—J. A. Obermeyer.

CITY COUNCIL HELD USUAL MONDAY SESSION

City Unable to Borrow Funds at Present—Mayor Suggests Ordinance to Keep Water Department Account Separate From Others.

The regular Monday meeting of the city council was held and as it was the first for the month reports of officers were presented and a number of other matters of business given attention. After roll call and the reading of the minutes a communication was read from Mayor George W. Davis suggesting that funds received through the water department should be placed in a special fund for the maintenance of that department, and providing that after charges against the department were paid the balance should be placed in the general fund. The lease between the city and the Illinois Telephone Company for the use of a building on West Morgan street was renewed for five years, and the ordinance was given a second reading which fixes the boundaries of the new election precincts.

Under the report of departments Mr. Knollinger stated that thus far he had not been able to arrange for the borrowing of money for the city's payroll for the past month, that the city treasurer was not in position to advance the money at this time. The commissioner said that it was his hope that financial matters would ease up shortly and it would then be possible to borrow the money needed.

Mr. Newman said that he didn't think it was fair to the city for the treasurer to decline to lend money at the present time and that the fact that the money was not available would be a hardship for city employees. He said that the treasurer had carried the largest school deposits for 20 years and was not compelled to pay interest on them and that in return for such favors that the should be willing to lend the money to the city now, even if times are strenuous. The commissioner said that other banks had done so in the past and that other banks would have carried the school deposits, paid interest on daily balance and lent money needed at 5 per cent.

The matter of the lease with the Illinois Telephone Company for the building on West Morgan street formerly used as a fire engine house, was brought up and it was decided to renew the lease for five years at an annual rental of \$120. The ordinance revising the election precincts was given a second reading and adopted. The precincts are in accordance with the map which was made obtainable.

The ordinance to which Mayor Davis had referred in his communication earlier in the session was read and laid over under the rules. The language of this ordinance is quoted below.

Mr. Newman said that he was in favor of the plan suggested in the ordinance on general principles but did not think that the present was the proper time to adopt the plan as it would mean that claims against the water department would be given first consideration and that city employees and other creditors would have to wait. He said he thought it probable that he would vote against the ordinance at the next meeting, although he would like to see it adopted at some time earlier in a fiscal year. The commissioner maintained that if the city explained to creditors who had furnished machinery or fuel for the light department that more time would be obtained.

Mr. Brennan said if the water department was to be developed and maintained that it was absolutely necessary to keep the city's credit good.

Mayor Davis said that the matter of setting the funds aside had been in his mind at various times for a year or more and he believed that by so doing a more certain and proper development of the water department would result. He said further that the suggestion in the proposed ordinance was simply in accord with the requirements of the municipal ownership law which was passed at the same time that the public utility commission was authorized by the legislature. The ordinance mentioned is as follows:

An Ordinance.

Creating a special fund for the Water Department and providing for the expenditure thereof.

Be it Ordained by the Council of the City of Jacksonville:

Section 1—There shall be a fund created and set aside for the Water Department of the City of Jacksonville which shall be known as the Water Department special fund.

Section 2—Into this fund shall be placed all of the revenue derived from the Water Department of any kind whatsoever. This money shall be held by the Treasurer of the City of Jacksonville and expended only for paying the expenses of the Water Department and its general maintenance.

Section 3—At the end of every three months the Treasurer of the City of Jacksonville if there be any monies above and over the amount needed for the general maintenance of the Water Department, shall transfer such monies to the General Fund to be used for general corporate purposes, provided, however, that he shall retain in said special fund an amount equal to Ten Percent per annum to allow for depreciation and which said amount shall be used only for the purchase of new equipment.

Section 4—All ordinances or parts of ordinances in conflict with the provision of this ordinance are hereby repealed.

Passed at a meeting of the city council of the city of Jacksonville held this day of November, A. D. 1914.

The cases of two delinquent girls were reported and application for one of them was made to Juvenile Courts.

ENGAGEMENT ANNOUNCED.

Miss Edna Reed entertained seven of her girl friends at a slumber party at her home, Fairlawn, five miles northwest of the city, Saturday evening.

A delicious oyster supper was served, the decorations being in keeping with the Halloween season.

The evening was spent toasting Marshmallows around a large bonfire.

Sunday at dinner the announcement of Miss Reed's engagement to Mr. Lloyd C. Moss was made in a clever manner by the use of hand painted place cards, the wedding is to take place sometime the last of November.

Those present were Misses Ruby and Pearl Dewesse, Mariel and Beatrice Standley, Mary Black, Elsie Cully, Florence, Mary and Edna Reid.

THE STAR FOR MILITARISM.

Kansas City Star: E. B. Hoick, endowment secretary of the Illinois Woman's College of Jacksonville, Ill., writes a courteous letter to the Star dissenting from its view that the European war has proved the necessity of military preparedness. Rather, he thinks, it has proved the "futility of military preparedness."

This newspaper may be bone-headed, but it doesn't quite get the point of view. If a nation is looking for a chance to go to war, military preparedness on a vast scale is certainly a futile way of trying to keep the peace. But for a country essentially peaceful, as the United States is, an efficient fleet with an army of sufficient size to give the fleet adequate backing, would seem simply a matter of common sense protection, in the absence of an international police force.

Treaties have proved to be only a paper defense. They are like automobile ordinances—enforced only when there is an adequate police force on hand.

SISTERS MEET.

A very happy event is the reunion of five sisters who are now being entertained at the home of one of the five, Mrs. T. F. Douglass, 1032 South Main street.

The ladies are Mrs. Vine Skeels and Mrs. Frances Lindsay, both of Orange, Louisiana; Mrs. J. M. Cora E. Doolittle of St. Louis, Mo.; Mrs. Lou M. Tisdler of Harrodsburg, Ky., and Mrs. T. F. Douglass, Jacksonville, Ill. The ladies are the five daughters of the late E. M. Wiswell who was one of the early settlers of Morgan county.

Mr. Wiswell was quartermaster during the civil war of the 91st Ill. Vol and served during the years of strife and at its close settled in New Orleans where he died in 1866. Their mother was a Miss Bradshaw, prior to her marriage, and she was a sister of the late Mrs. James Strawn of the Orleans neighborhood and also a sister of A. Jackson Bradshaw who was sheriff of Morgan county in 1862. The ladies are nieces of Mr. George T. Wiswell, one of our worthy citizens, whose brother was the father of the ladies who are so happily united after years of separation. The occasion is one of much enjoyment to each of the sisters.

VISITED SCHOOLS.

Miss Sophronia Kent of the Jacksonville High school was in Springfield Monday visiting the schools. Her classes were taken by Principal Stone and by Miss Ruth Badger of Illinois college.

IMPROVING EQUIPMENT.

J. H. Cain & Sons, who are constantly adding to the equipment at the Brook Mills, have just completed the installation of a new cornmeal purifier. The machinery will greatly increase the facilities in this department of milling.

VIEWS OF STUDENTS ON DANCING QUESTION.

To the people of Jacksonville:

Contrary to a general impression we, students of the Jacksonville high school, do not wish to turn our high school building into a public dance hall. We wish to make a few statements of our side of the question which are not generally understood. Please lay aside all personal prejudices for a few minutes and think over these facts.

First, the students are not trying to make our school into a public dance hall.

Second, that we wish to have the dancing under the chaperonage of a committee to be made up of faculty, parents and students.

Third, the time and hours for dancing to be set by the faculty, parents and students.

Before this time our class parties have been held in the homes of various students. This has not always proved a success because of lack of space and other conditions.

Why not have our class parties in our gymnasium? We could if we could have dancing and this would be much better than we had last year, when we had to pay extra to hire the I. O. O. F. hall.

The community high school should be the social center of the school activities. Would not dancing in this school be far better than dancing in other places under a different environment.

Other large schools have taken this matter up and have given it consideration. Chicago has had this question solved by allowing dancing and it has proved a success.

In Jersey City, N. J. this has been proved a success.

What we ask for is that we may have the privilege of dancing under chaperonage, after class meetings, parties, society, banquets and celebrations.

We hope to have this and have tried to meet the parents half way on this proposition and it is up to you to help our school to be advanced in education and civilization.

Let us try this plan as you would any proposition in business. Then if it is thought desirable to discontinue, we should do so. We ask that we be met squarely on this question we brought this up in the proper way of asking and treat us fairly.

This question has been met in other towns and settled in a very favorable manner by letting the students have this privilege. This would not hinder the pupils' studies as it would most likely be on Friday or Saturday night.

We hope you will give us your support, and your approval will be fully appreciated as we want to make our school life the best part of our education.

A Student.

Some added interest was given the ceremony from the fact that the baptismal bowl was an heirloom in the Rogerson family and had once been used for a like purpose by the grandmother of Mrs. Wolmer. GRIGGSVILLE FARM HAND HAS CLOSE CALL FROM QUICK DEATH

Foot Slips and Charles Birchard Falls Beneath Wheels, Yet May Recover.—Was Seeking Ride to Farm, One Quarter of a Mile Away.

Charles Birchard of Griggsville is at Our Savior's hospital with injuries bearing record to one of the narrowest escapes from terrible death of recent months. Starting to a farm on which he was employed a fourth of a mile west of town, he sought to catch a Wabash train. His foot slipped and he fell beneath the wheels of the freight, striking in such a way that the back part of his scalp was torn off, the right ear was severed and an injury was received to one shoulder of such a nature as to induce a partial paralysis. He has good chances of recovery.

The injured man was brought to the city Monday morning by Dr. Lovell of Griggsville and underwent an operation at the hospital here about nine o'clock. His injuries are severe but not necessarily dangerous, though it was by the merest chance that he was not crushed or mangled.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is like grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, using one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides it prevents dandruff itching scalp and falling hair.

R. O. STOOPS SPEAKS AT PEACE FLAG PRESENTATION

First Peace Emblem in State Now
Shown in Joliet Public Library.

Louis Joliet Chapter, Daughters of the American Revolution, presented recently to the Joliet public library a large American flag bordered in white, in all probability the first peace flag ever displayed in Illinois. The emblem was presented by Mrs. J. Franklin Courtney, regent of the chapter. Attorney James L. O'Donnell accepted it for the library board and Supr. R. O. Stoops spoke for the school children of Joliet. The flag is displayed in the children's room.

"Patriotism is most glorious when it is peaceful patriotism," said Mr. Stoops. "Our schools should inculcate in the minds of the pupils the thought of peace. We should not praise only our military heroes. There are heroes who have devoted their lives to fighting disease; their only fame is among men of the medical profession. Let us praise those of our military heroes who have fought bravely for principles which they loved, but let us praise equally and honor equally, our heroes of peace."

ILLINOIS' OLDEST GRADUATE DEAD

JUDGE THOMAS J. C. FAGG ANSWERS FINAL SUMMONS.

Passes Away at the Home of His Daughter, Mrs. C. W. Bright, Being Past 92 Years of Age—Was One of the Men Who Helped to Keep Missouri in the Union.

Word has been received in the city of the death of Judge T. J. C. Fagg, the oldest graduate of Illinois college being a member of the class of 1842. He passed away last week at the home of his daughter Mrs. C. W. Bright, 409 West Gate avenue, Park View, St. Louis, Mo. He was over 92 years of age. He was born in eastern Virginia and the family came west in 1836. In 1907, Judge and Mrs. Fagg celebrated their 60th wedding anniversary.

By the death of Judge Fagg, Rev. George W. Harlan of the class of 1846 of Farmington, Mo., becomes the oldest living graduate. Timothy Ward of the class of 1845 would be in line for the honor, but for several years the college has endeavored to locate him and it is believed that he has passed on to his reward.

The Hon. T. J. C. Fagg was one of those men who honor anything they are connected with. From Missouri Mr. Fagg came to Illinois college in the early days when it was a matter of pluck and determination to be known as a student of an institution opposed to slavery. He maintained a consistent position in this regard becoming a Union officer, being a colonel of Missouri volunteers. He was certainly a pronounced supporter of the Union when to be such, in his state, tried men's souls.

Mr. Fagg was a Republican and when his party came to power he was elevated to the supreme bench of his state.

Judge Fagg took great interest in Illinois college and frequently came over to its festivals of the night or of social gatherings.

While Judge Fagg passed away at the home of his daughter in St. Louis, his home in active life was in Louisiana, Mo., the stamping ground of that other great Missourian, Champ Clark.

Judge Fagg and the other gallant men who helped him keep Missouri in the Union, deserve not only state but national recognition, and it is another instance of the great work done by Illinois college for the nation that he was educated here. Illinois college conferred the degrees of A. M., and L. L. D. upon Mr. Fagg.

As implied above, he was a lawyer by profession, a district judge in his state and a justice of its supreme court.

Priest at the court house Monday morning at 10:30 o'clock. The groom is a musician and at one time was pianist at the Cottrell theatre. They expect to make their home in Barry.

T. F. SMITH MAY BE ASSISTANT U. S. DISTRICT ATTORNEY.

Rumor is That Jacksonville Attorney Has Been Appointed to This Position.

A rumor was current yesterday that T. Forrest Smith, assistant states attorney, had received the appointment of second assistant to the U. S. District Attorney Knotts. Mr. Smith has been regarded as the leading applicant for this position for several months although he has had strong competitors from Peoria and Bloomington. Asked about the matter last night Mr. Smith was unwilling to make any statement. His preference will be regarded with favor by the Democrats of Morgan county and he is competent for the position.

STOCK QUARANTINE

found in Kane and Kendall counties today by federal inspectors and more than 100 head of cattle were ordered killed and buried.

The two counties will be put under close quarantine tomorrow. The disease spread to this section, it is believed, from Northern Indiana.

None of Disease in East St. Louis.
East St. Louis, Ill., Nov. 2.—Business in the National Stocks Yards here will not be materially affected by the quarantine of live stock said C. T. Jones, general manager of the yards tonight. As the order from Washington prohibits only reshipments, he estimated that only fifteen per cent of the yard's business would be stopped.

No evidence of the hoof and mouth disease could be found in East St. Louis, today, Mr. Jones said. He declared that the quarantine was chiefly a precautionary measure and predicted that it would be lifted in ten days.
